

PARENTS TO PARENTS

We are reaching out to all parents with school age children. We hope you will sit down with your children and in a sensitive, gentle way assure them that they will be safe in sharing anything that may have happened to them or their friends. Talking to your teenagers about this might be very difficult for you as parents, but this is a conversation you need to have. Give them some time to think about it - then ask them again.

We ask that parents, students, and anyone else with knowledge or information come forward, anonymously if so desired. Your privacy will be respected. Your information is important and can make a difference!

We want to thank everyone for your letters of support. Visit the new page on our website called "Speak Your Mind" featuring emails and letters from the community. We update the site daily.

(All documents on the website are public record or have been offered to us with permission to publish.)

We encourage you to become informed and get involved for the safety of our children.

We thank you, *Lynn & Peter Bliss*
